were utilized by
survivors to enhance
well-being

Thank You!

Cancer Services strives to “Enhance Health, Life and Survivorship” in the lives of cancer patients and their families in our community. Since 1955, Cancer Services has been the Triad’s community of caring, providing resources to cancer patients and their families during one’s cancer journey. Our family of supporters is tremendous in loyalty and generosity and we want to thank you! It is because of your support that we can continue to ensure that cancer patients now and in the future will have access to cancer treatment and support.

We would like to recognize the individuals that have chosen to make endowed gifts that help secure the existence of Cancer Services’ future and create a lasting legacy through planned giving. These endowed and established funds are held at Cancer Services and managed by our Board of Directors, with proceeds benefitting all of the services and impact shared on the front side of this Annual Report.
