ACCESS OUR PATIENT ADVOCATE TEAM

Our dedicated staff will provide you with solutions and assistance **at no charge**. We strive to enhance your cancer journey with a combined approach of providing direct assistance and helping access additional resources. This year our clients will receive more than $2 million in resources.

**We can offer you:**
- Cancer-Related Information
- Medical Supplies
- Wigs and Turbans
- Home Health Equipment
- Transportation Resources
- Local, State, and National Resources
- Nutritional and Ostomy Supplies
- Medication Assistance
- Mastectomy and Lymphedema Supplies

**CONNECT WITH A COMMUNITY OF SURVIVORS**

From the time of a diagnosis, you are a survivor! You can participate and learn from hundreds of programs while talking to people who have been there. Our “Care Team” will contact thousands of survivors this year and would love to talk with you! We hope you will connect with us.

**Get connected to our Survive & Thrive! Wellness Programs:**
- Transitions Wellness Program
- Monthly Wellness Groups
- Survivorship Seminars and Conferences
- Cancer Dietitian Nutrition Programs
  - [www.cancerdietitian.com](http://www.cancerdietitian.com)
- Body & Soul Outreach Program
- Prevención Hispanic/Latino Outreach Program

---

We are the Triad’s community of caring for people facing cancer.

Last year, Cancer Services changed the lives of more than 4,600 survivors in our community.
Together, let’s improve wellness in our community.

One in two men and one in three women will be diagnosed with cancer in their lifetime. Healthy lifestyles and access to medical care reduces risk of cancer and other chronic diseases and improves survival.

Our Community Wellness Team educates and motivates participants to maintain healthy lifestyles. We invite you to embrace a habit for good health. Contact us with opportunities to speak in your church, school, work place or civic group.

Seminars include:

- Fighting Cancer with Your Fork
- Plant-Based Diets: Do’s & Don’ts
- Cancer Nutrition Myths & Truths
- 10 Ways to Reduce Cancer Risk
- Know the Rainbow of Awareness Ribbons
- Where to Turn: What Cancer Patients Need
